

# How will the game work?

A little girl has lost her cat, you have to chase down the cat (based on multiple levels) and retrieve it for her. There are other breeds of cats, but your goal is to click on the CALICO CAT. If you chase her down 10 times, you retrieve the cat and can return it to the little girl. Find the cat, chase it down, and return it to the owner ON TIME, before all of the cats cross the streets. The items will move horizontally on the screen and you have to press the RIGHT cat, or the calico cat, and you will continue to the next level. As you continue, the game will become faster and add more cats to the “alleyways.” If you chase the cat down, you finish the game, and if you don’t you lose.
